GitHub | LinkedIn | Portfolio

CAREER OBJECTIVE

Third-year Computer Science and Engineering student and self-taught Full-Stack Developer skilled in React, Next.js, Node.js, Express.js, and SQL/NoSQL databases. Seeking a Junior Full-Stack Developer role where I can build secure, scalable web applications while continuing to strengthen my system design and backend engineering skills.

SKILLS

Frontend: HTML, CSS, Tailwind CSS, DaisyUI, JavaScript, TypeScript, React.js, Next.js
Backend: Node.js, Express.js, REST API, JWT Authentication
Database & Tools: PostgreSQL, MongoDB, MySQL, Prisma, Firebase, Git, GitHub, VS Code, Figma, Vercel, Netlify, Render
Interpersonal: Teamwork, Problem-Solving, Communication, Time Management

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Cypher Bangladesh
3 Months

- Contributed to the development and maintenance of full-stack web applications using React, Node.js, and Express.js.
- Collaborated with the engineering team on building and integrating REST APIs and database-driven features.
- Assisted in debugging, testing, and improving application performance under senior developer guidance.

PROJECTS

RentNest — Rental Property Marketplace
Live Demo | Frontend Repo | Backend Repo
A full-stack rental platform connecting tenants and landlords with secure payments and admin oversight.

- Tenants can browse and filter listings, submit rental requests, complete secure Stripe payments, and leave reviews.
- Landlords can create and manage property listings with image uploads and review incoming rental requests.
- Admins manage users, moderate listings, and oversee all rental requests through a dedicated dashboard.

Tech: *Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, JWT, Stripe, Tailwind CSS*

ZapShift — Courier & Parcel Delivery Service
Live Demo | Frontend Repo | Backend Repo
A courier and parcel delivery platform enabling booking, real-time tracking, and rider/warehouse coordination.

- Users can book parcels, pay charges, track delivery status, and receive real-time updates.
- Riders collect and deliver parcels, update status, and confirm delivery via OTP.
- Admins assign riders, manage routing, and oversee warehouse operations and workflow.

Tech: *React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Netlify*

EDUCATION

Bachelor of Science in Computer Science and Engineering
Chittagong University of Engineering & Technology (CUET) — 3rd Year

CERTIFICATIONS

- Web Development Course — Programming Hero (Batch 12) View Certificate
